EVOKE

Four bedrooms, four bathrooms — delivered whole.

From AU\$399,000 incl. fixtures & fittings · plus delivery & installation

THE HOME

Room for everyone. One honest number.

EVOKE is the family and share home of the range — four bedrooms, four bathrooms and one generous open living room on a single calm level. Every bedroom sits beside its own bathroom, so it works as beautifully for a family as it does for sharing. Delivered whole, anywhere in Australia, and installed on a date you can count on.

The price of the home is fixed from the start — turnkey interior with fixtures and fittings included. Delivery and installation are quoted separately for your site — we deliver anywhere in Australia — and your EVOKE is designed, approved and looked after by one accountable team well beyond the day you move in.
